PROJECTS

Connect App (03/2023 - 09/2023)

- this project aids employees in tracking their work on the calendar, managing tasks, and handling leave & attendance.
- I handle business requests and make changes to the website accordingly.

Marketing DB (09/2022 - 02/2023)

- this application helps the marketing team create campaigns, filter users based on requirements, auto-generate emails, and auto-send emails based on the campaign.
- Handle the runtime queries of clients and marketing teams and provide timely resolutions.

ONLINE EXAM MANAGEMENT SYSTEM(OEMS) (06/2021 - 08/2021)

- The entire application was created solely by me and also deploy the application on web.

BUYAMIA (08/2021 - 05/2022)

- Buyamia is the first big scale E-Commerce website that allows users to do B2B in Indonesia.
- Create database structure, design the application in react and also create api in node.
- <https://buyamia.com/>
